Specification Sheet for Center Fire Rifle Suppressors

Model name: MJOLNIR

Caliber: 300 / 221 Fireball

Weight: Approximately 25 ounces total weight of suppressor components

Length / Diameter: 24" x 1.5"

Material: 300 series stainless steel / 6061 Aluminum / Titanium

Attachment: Integrally mounted to host rifle

MSRP: 2320\$ - This price includes the new 1 in 8 twist match barrel, new heavy duty recoil lug, the riflesmithing to install it on the customer supplied action as well as the construction of the suppressor. The barrel is an integral part of the suppressor design; therefore, we can only build Mjolnir on bolt action rifles. We have sources for ammo and components as well for this weapon platform.
