The sequence is listed below for dismantling the Mystic X suppressor.

1. Remove any ammo from the host weapon.
2. Remove the suppressor from the host weapon.
3. Remove the mount from the rear of the suppressor.
4. Pour in some powder solvent or Kroil oil to make disassembly easier.
5. Remove the tube-retaining ring on the rear of the suppressor.
6. Grab the tube of the suppressor with one hand and push the core out the front of the tube.
