**Material:** Stainless steel / Aluminum

**Attachment:** Thread mounted

**Approx. DB Reduction:** 41dB (Wet) 28-32dB (dry)

**MSRP:** \$699

**Description:** We designed these suppressors around the 1911 and Glock family of pistols, due to the ease in obtaining threaded barrels for the host platforms. These suppressors are light and most of the weight is on the booster so the pistol/suppressor combo feels very good in the hand. They come in black anodized finished and a nylon suppressor pouch for storage. These suppressors provide amazing suppression dry (db's in the low 130's) and even better wet (db's in the low to mid 120's). You will love these silencers!
