Specification Sheet for 22LR Suppressor

Model name: Pinnacle 2 Integral barrel

Approximate sound reduction: 41 decibels

Weight: 24.5 ounces

Length / Diameter: 16.5" x .92"

Material: Stainless Steel throughout

Attachment: Integral. Mounted to factory target barrel position

MSRP: 799\$ (suppressed barrel only)

Description: With virtually no first round pop, this suppressor is specifically engineered for the RUGER 10-22 rifle platform. It is designed to work with any standard velocity or high velocity ammunition as well as most subsonic ammunition. The light weight combined with the high stealth of the platform give this rifle a lot of options when it comes to shooter enjoyment. The all stainless steel construction is durable as well as resistant to harsh cleaning solvents and ultrasonic tanks as well.
