### Specification Sheet for 5.56mm Suppressors

#### **Model: Torch of Liberty (Torch)**

**Weight:** 18.5 ounces

**Length / Diameter:** 8" x 1.5"

**Material:** Stainless Steel

**Attachment:** Thread mounted

**Barrel Length:** Minimum 14.5"

**MSRP:** \$495

**Description:** This suppressor is specifically engineered to fit the AR15 family of rifles. It mounts easily to the existing threads in place of the original flash hider. It requires no tools for installation or removal. It is provided with a storage pouch made of ballistic nylon. Due to the burn characteristics of the 5.56 round, the Torch will get VERY hot during use. Take precautions to prevent injury to yourself and others as well as damage to property from heat (melted nylon gear comes to mind) This unit is not full auto rated.

#### **Model: Torch QA**

**Weight:** 20 oz. w/o Mount. (23 oz. including Mount)

**Length / Diameter:** 8" x 1.5"

**Material:** Stainless Steel / 718 Inconel Blast Baffle

**Attachment:** Proprietary Quick Attach design

**Barrel Length:** 11.5" Minimum

**MSRP:** \$680 (furnished with one mount)

**Description:** This suppressor is specifically engineered to fit the AR15 family of rifles. It mounts easily to our proprietary flash hider adapter that is provided with the suppressor. The blast chamber is protected with an inconel blast baffle for long life. It requires no tools for installation or removal of the suppressor. It is provided with a storage pouch made of ballistic nylon. This unit is rated for barrel lengths down to 11.5" and will not work on shorter barrels due to the design of the QA mount. This suppressor is full auto rated in 5.56mm.
