LIBERTY SUPPRESSORS

113 Gunsmoke Trail Trenton, Ga 30752
706.661.6911 | support@libertycans.net | www.libertycans.net

At Liberty Suppressors, we make our suppressors lightweight, durable, and most importantly, quiet, to offer the best experience for our end users.

We desire to provide a suppressor for every shooter, and for those that want versatility, our Mysitc X multi-cal can supports over 80 cartridges (more than any other multi-cal can on the market!), and we offer the adapters to mate it to just about anything!

Not only do we want to provide quality products, but we also want to provide quality service. This is why whenever you give us a call, you are connected directly to a human without going through any robot or directory.

As always, our suppressors offer a Lifetime Warranty and generous margins for dealers.

We only require a minimum of 25% down. The remaining balance will be charged as soon as your order is ready to ship out. We accept Visa, MasterCard, Discover, checks and money orders, all with no fees.

There are no finance charges applied as long as we are authorized to run the credit card and there is no problem with payment when the order is ready to ship. If the credit card does not go thru, you decide to send a check, etc., the standard finance charges will apply. This will be 3% of unpaid balance per month.

There is also a restocking fee of 15% (with a minimum of $75) for all cancelled orders. This is an unfortunate reality to cover credit card fees, cancel ATF forms, sitting on products without the ability to resell for many months and office labor to process the cancellation.

We do enforce MAP Pricing. Any price shown on a checkout page before completion of the sales transaction will be considered to be an advertised price and must conform to our schedule of minimum advertised prices.

Regardless of where you order, we always do our best to make sure you receive wonderful customer service and state of the art suppressor in construction and sound reduction. Give us a call at 706-661-6911 or visit our online dealer web store at www.libertycans.net/dealerstore

Thank you!

Metering information

Meter data varies greatly depending on a variety of factors including temperature, elevation, humidity and other enverinmental factors. Because of this, the information below is provided only as a reference. However, we have found it to be rather consistent to within a couple dB in virtually all cases.

Dealer Education

We offer Liberty's Dealer Education Classes.

The goal of these classes is to help dealers, you guys, better understand our company, our products, and suppressors in general. This then helps you be better equipped to assist your customers, and ultimately, it can increase your sales.

During the course, we will go over things such as the following:
How do suppressors work?
What are the different variations of suppressors?
What does Liberty's product line offer?
How does Liberty compare to the competition?
What kind of materials does Liberty use?
What kind of dB reduction can be expected, and how does this translate to real world experience?
What suppressors are best in what specific applications?
What kind of payment plans does Liberty offer?
Plus: any other specific questions you may have.

Classes are held on Friday mornings via Zoom, and they last 40 minutes. We encourage your entire team to be present for the class, but at the very least, your management and sales team members would benefit from the course.

As a bonus, if you place an order with us within 3 days following your class, you will receive a 10% discount!

If you're interested in scheduling a time to attend a class, reply to this email, and we will get a time set up for you!

Thank you, and we look forward to hearing from you,
Team Liberty
